

## ROYAL GOLD (WITH RYE) SPECIFICATION SHEET

### DETAILS

County Bargold is perfect for use on golf tees, fairways, and green surrounds. We now produce a Bargold grade of Royal with Rye incorporating one of the finest ryegrass varieties available. This is a superior finer tee mix whilst still having the harder wearing ryegrass to help with wear.

It is a low maintenance turf with a medium fine texture and superb year-round colour and can be mown down to 8mm.

### TYPICAL SEED COMPOSITION - COUNTY BARGOLD (WITH RYEGRASS) Grass Species

- **30% Bargold** - Dwarf Ryegrass
- **70% Viktorika** - Slender Creeping Red Fescue

### S.T.R.I. CULTIVAR PROFILE

**Bargold** One of the very top-rated Perennial ryegrasses in 2012. Superior fineness of leaf, at the top of the listing scoring 8.5, whilst maintaining a high score for shoot density. Excellent tolerance to close mowing and the cleanliness of cut is superb. Exceptionally good disease resistance.

**Viktorika** the very top new Slender Creeping Red Fescue cultivar in 2012. Unrivalled shoot density, fine leaved with superb greenness. The most disease resistant slender cultivar
